PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed school emergency plans required at the building level. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Millbrook Central School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

## CONCEPTS OF OPERATION

1. The District-wide School Safety and Emergency Management Plan will be directly linked to individual Building-level Emergency Response Plans for each school. Protocols developed in the District-wide School Safety and Emergency Management Plan will guide the development and implementation of Building-level Emergency Response Plans.
2. All District building plans have been standardized to the extent possible so that leadership decisions are consistent and leaders may be interchangeable as necessary. The training and expectations set at the district level are applicable to all building team members.
3. In the event of an emergency or violent incident, the initial response at an individual school will be by the Building Emergency Response Team.
4. Once the Superintendent and/or his/her designee are notified, the District Emergency Response Team may be mobilized to respond, and when appropriate, local emergency officials will be notified. All will follow the emergency management protocols and practices outlined in the National Incident Management System (NIMS) and will practice Incident Command System (ICS) techniques to better manage these events.

## PLAN REVIEW & PUBLIC COMMENT

Students are involved in a wide variety of safety activities through both their classes as well as through work with guidance counselors, social workers, and school psychologists.

Each building has established a mechanism for the anonymous reporting of school violence and harassment and has communicated this to students and parents.<sup>13</sup>

The school district's Code of Conduct which is mailed to parents and disseminate to all students in the beginning of the school year during an assembly program, addresses bullying, violence and harassment and their consequences.

All staff members are trained in recognizing and effectively dealing with these behaviors, as outlined in the Code of Conduct.

In addition, each school has a wide range of programs that impact school safety. Programs include a variety of clubs, small groups lessons and counseling sessions, school-wide meetings, morning meetings in classrooms, assemblies, mindfulness rooms, yoga and movement breaks, and a variety of wellness opportunities.

---

<sup>13</sup> 155.17(c)(1)(xvi) strategies for improving communication among students and between students and staff and reporting of potentially violent incidents, such as the establishment of youth- run programs, peer mediation, conflict resolution, creating a forum or designating a mentor for students concerned with bullying or violence and establishing anonymous reporting mechanisms for school violence;

## REPORTING THREATS OR ACTS OF VIOLENCE

Students, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The District has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

- Students are instructed to report threats and acts of violence to staff members.
- Each school has designated a reporting process, which can be done anonymously.

#### EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR<sup>18</sup>

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A summary of the District's Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for bullying, violence, and harassment.
2. A "plain language" summary of the Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District's schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Child Study Teams or their equivalents meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School

<sup>17</sup> 155.17(c)(2)(h)(3)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

<sup>18</sup> 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, parents and other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students are involved in this process.

5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.
7. Each of the District's school psychologists/social workers facilitates counseling groups for identified students around issues related to poor social skills development, anger management, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District works in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

## SECTION III RESPONSE

### NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

#### EXTERNAL

Anyone with knowledge of an incident is encouraged to immediately call 911 in an emergency.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, Google groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of staff, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <http://www.millbrookcsd.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or his/her designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or his/her designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

#### INTERNAL

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

### SITUATIONAL RESPONSES

#### MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific

response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or his/her designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.

## RESPONSE PROTOCOLS

### SCHOOL CANCELLATION

- The Superintendent or his/her designee will monitor any situation that may warrant a school cancellation and will make the determination to do so.

## RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE<sup>21</sup>

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or his / her designee of any direct or implied threat of violence or actual act of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or her/his designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochure, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or her/his designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measure consistent with the District's Code of Conduct. Chronic offenders may require a behavior intervention plan, close monitoring, and/or police involvement.

## RESPONSES TO ACTS OF VIOLENCE<sup>22</sup>

1. The Principal or her/his designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or her/his designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter – In – Place, Fire or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District’s mass communication system is typically utilized.
6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district code of conduct.
7. The building administrator will investigate reported threats and reported acts of violence and will make the determination of disciplinary measure consistent with the District’s Code of Conduct. Chronic offenders may require a behavior intervention plan, close monitoring, and/or police involvement.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact

Coordination of available employees is typically performed by the Principal or designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a "debriefing", or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team's response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District's Public Information Officer will assist in sending mass communication messages to affected groups. The District's Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

## APPENDIX 6 – STATE DISASTER EMERGENCY PLANS

### PROTOCOLS FOR A State Disaster Emergency

#### BACKGROUND

In September 2020, Governor Cuomo signed legislation requiring all public employers to prepare for state disaster emergencies involving public health. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan. In February, 2021 this plan was amended by S1295, 2021 Leg. and A0980, 2021 Leg.

#### *Activation*

*These protocols have been developed to respond to a state disaster emergency. Directive shall come from the New York State Education Department, New York State Department of Health, Dutchess County Department of Health, or other appropriate agency for this protocol to be activated.*

As per Legislative language, operation plans must include the following elements:

1. List and description of positions considered essential
2. List of all non-essential position titles along with descriptions of protocols to follow to enable all non-essential employees to work remotely
3. Description of how employers would stagger work shifts to reduce overcrowding
4. Protocols for PPE
5. Protocol for when an employee is exposed to disease
6. Protocol for documenting hours and work locations for essential workers
7. Protocol for working with essential employees' localities for identifying emergency housing if needed
8. Any other requirement determined by the New York State Department of Health, such as testing and contact tracing

#### OPERATIONAL ELEMENTS

1. **Positions Considered Essential** - According to Section 27-c; "Essential" shall refer to a designation made that a public employee is required to be physically present at a worksite to perform his or her job. The District maintains that while the following staff members are considered essential, it is dependent on the emergency, the needs of the District, and the particular duties required that they be physically present at work each business day during the emergency period. While the staff members are essential, this does not mean that all such employees will be required to report to work on campus. It will be up to the individual's immediate supervisor to determine necessary staffing levels, and if an essential employee is to physically report to work on a given

day (during the emergency period). In the event of a state-ordered reduction of the District’s in-person workforce, the following is a list of essential employees.

- Positions considered non-essential** - *"Non-essential" shall refer to a designation made that a public employee is not required to be physically present at a worksite to perform his or her job.* In the event of a state-ordered reduction of the District’s in-person workforce the District may provide, to the extent possible, the opportunity for **non-essential** employees the capability to telecommute (including, but not limited to, facilitating or requesting the procurement, distribution, downloading and installation of any needed devices or technology as determined by the employee’s supervisor. This may include but is not limited to employees who provide direct instruction to students, provide student support services, facilitate procurement processes for the District,

facilitate payroll processes for the District, and facilitate administrative and office-related tasks for the District. There may be some staff who will not be able to telecommute nor will they be needed to work on campus. The need for these staff will be determined on a case-by-case basis and by job title.

Listing of Non-essential position titles that may be assigned to telecommute along with equipment deemed essential to their role.

Some staff will be issued a VPN as needed, to allow for access to the departmental files and programs. The appropriate administrator identifies the need for a VPN. The Director of Technology or their designee, and an Assistant Superintendent, will review this request prior to the issuance of the VPN.

Transfer of phone lines to work or personal cell phone.

OR

In the event of a pandemic, the district will use email and check voice mail to continue needed communications.

3. To the extent possible, and consistent with collective bargaining agreement restrictions, the District may stagger work shifts of essential employees in order to reduce overcrowding in confined or shared spaces and at worksites. Wherever possible, we will encourage parents to drive students via personal vehicle to campus in an effort to reduce the number of individuals riding on the same District provided bus. In an effort to reduce overcrowding in classrooms and on buses the following concepts may be applied:
  - o Student Rosters, if scheduled classes are to be on-site, will be split into student cohort groups to minimize the number of students in a classroom or on a bus at the same time.
  - o If no students are in school, staff may continue to have their work shift or assigned days of work staggered as necessary.
  - o Employees (as outlined in bullets 1 & 2) may be permitted to work remotely as necessary.
  - o Visitors will not be permitted on campus.
  
4. Personal protective equipment (PPE) will be procured and stored:
