Reminder from Mr. Hurley to complete and return the non-collusion statement to the District Auditors.

Brian Fried and Anne Knapp presented modifications to the Eligibility Policy (5305 R). This policy was modified to meet the needs of all students, by grade sequence.

In the high school, changes included allowing for an ineligible student to attend an after school event with prior approval from the administration. A second change is making it clear that a BOCES course is more than one component.

In the middle school, the changes were focused on keeping the middle level student in mind. It has been noted that keeping a student ineligible for ten weeks is a long time for a middle school student. It was noted that grades fluctuate very much at the Middle School level. Also, with the given policy the middle school students are not caught until January and are missing three months of help and guidance. It was also noted that the middle school students don’t always know that they are failing two or more subjects. The new policy would require the student knowing at the five-week period if they are in danger of failing two courses. In addition, the study hall teachers would also be informed so that they could offer positive reinforcement for studying and working toward passing. If the student is still failing after the five weeks, they then would be on probation. If the grades did not improve, the student then would become ineligible.

Mrs. Bondus voiced her concerns with regard to allowing students, with administrations permission, to be a spectator at a co-curricular activity even though they were ineligible. It was noted that one could not be a spectator at the prom and therefore, no one would be allowed to attend the prom if they were ineligible.
Mr. Lindsay asked if the policy is working to make all kids achieve eligibility status. Mrs. Knapp noted that this policy works for the group of students that have a desire to become eligible for a co-curricular reason. Unfortunately, there are students who do not achieve for other reasons and they are targeted with other interventions.

Mr. Binder asked how this policy would be fair to all students. How can this policy be rolled out fairly? He also asked the possibility of a student failing all subjects and getting away with it for an additional five weeks.

Mr. Mahoney noted that Mrs. Knapp and Mr. Fried came to the Board after concerns in the community regarding eligibility. Beyond this policy, the district is working on other academic interventions to assist the students in achieving successful grades in his or her studies.

Mr. Rudy noted that the language seems to indicate that a student who came to the event would not be allowed if he or she did not have prior approval. In addition, Mr. Fried noted that the verbiage on spectator versus participant would be tightened up.

In response to Mr. Hurley, it was noted that this high school and middle school component has been overwhelmingly approved by the staff in the schools.

Mrs. Blackburn noted that she believed that for each level, middle and high school, the parent and or guardian should be required to be in attendance with or at least make the request on behalf of the student.

This was a first reading of Policy 5305 R with the noted change to the high school section and a section for the middle school. A second reading will be scheduled for July 19, 2004. In the meantime, Mr. Fried will consolidate the regulation and provide it to the Board by Friday.
W. Michael Mahoney updated the Board on the facilities project status to date:

- Geo-technical assessments are planned for the upcoming week. A letter has been sent to all neighbors.
- Lou Rodriguez is scheduled to attend the July 19th Board meeting to review the project status.
- Clark Patterson has reviewed late facilities focus group reports. The library and music spaces have been reviewed and are being revamped to meet the needs of the groups.

Mrs. Bondus was concerned that the timeframe may limit the Board input. She believes that the Board should be reading the focus group reports, meeting with the chairs of those groups and making sure that the plans are representing the majority of the recommendations, minus required trade-offs of needs versus wants. Mr. Hurley and Mr. Mahoney noted that the majority of the focus groups were pleased with the design outcomes. Mr. Mahoney added that the building would be better due to the input from the groups. He added that the focus groups were meant to recommend, not dictate. The concern over extending the timeframe is a concern of spending additional money on people’s time, not brick and mortar. This is money that we do not have. At this time we have contracts with groups for 33 to 36 months, these will be costly to extend.

Mrs. Bondus clarified that she was concerned that all of the information was being funneled through the Superintendent’s Office. She noted that in the end the Board is responsible for saying what stays and what goes.

In response to Mr. Binder it was noted that change orders could be obtained. Space changes can be made, but if one space enlarges another space will have to be reduced.

Mr. Mahoney asked that the Board clarify what is at issue. Mr. Rudy noted that Performing Arts, Library and Music have been brought up as problem areas. Mr. Rudy stated that he is interested in seeing functional specs, the project meeting minutes and timelines. In response, it was noted that Project meeting minutes would be distributed to the Board.
Mr. Lindsay noted that he does feel as though is in the loop and has no desire to delay the project. He also stated that he is putting his support into the professionals that the district has hired to keep us on financial track.

Mrs. Bondus stated that she as a Board member want to know what was asked for and what was denied. Mrs. Blackburn agreed with Mr. Lindsay in that the experts are in charge of the project and need to be trusted.

Mrs. Vicky Kelly, a focus group member, stated that the community would hold the Board responsible for the construction and any flaws that the new building has. She added that she was shocked that the Board has not reviewed the focus reports.

Barbara Rudy asked whose responsibility it was to make sure that the “drop dead” issues, as indicated by the focus groups, were addressed. In response, it was noted that one person’s idea of a drop-dead issue may not be another person’s and that in the end the State Education Department will decide if the plan is academically acceptable. Beyond that, the architects will present a plan to the Board and the Board will have final approval.

Philip Campbell suggested that the architects create or share with the Board a compliance matrix. This matrix shows what was requested, what was accomplished and a brief reasoning for such.

Mr. Baker suggested that the Board enlighten the public on the firmness of the plans at this time and at all stages in the future.

Dawn Harkenrider stated that as the Chair of her group she felt the architects met and exceeded the expectations of the group.

Mrs. Blackburn stated that the Board would do there best with the 20 million dollars provided by the community. She reminded the community that the Board originally requested 33 million to build the new high school and that request was met with a failed referendum. The Board then reduced the project further and was defeated yet again. In conclusion, she stated that the Board has 20 million dollars, therefore, it will not be able to build the 33 million-dollar school.
After continuing discussion back and forth the following points were settled on:

- Mr. Mahoney will provide copies of the focus group reports to the Board.
- Mr. Mahoney will provide copies of the project meeting minutes to the Board.
- Lou Rodriquez of the Palombo Group will attend the July 19, 2004 meeting.
- A representative from Clark Patterson Associates will attend the July 19, 2004 meeting.
- There will be no submission of plans to SED before the July 19, 2004 meeting.

A motion was made by Mr. Binder, seconded by Mrs. Blackburn and carried unanimously to close this item to discussion.

There were a few members of the community in the audience for the Regular Meeting of the Board.

Thomas Hurley, Board President, called the meeting to order at 7:39 p.m. Mr. Hurley then led the Pledge of Allegiance.

The Board conducted a public hearing on the Code of Conduct. The changes, as presented, came from the advice of the District attorney and administration. Changes were noted in Italics in the Code of Conduct. In response to Mrs. Blackburn it was noted that students would still be allowed to use cameras for educational purposes with authorization from either a teacher or administrator.

In response to Mr. Rudy it was noted that the particular reference to email and computer use was at the suggestion of the attorneys. Mr. Mahoney stated this was to let student’s know these are behaviors that are not allowed.

Kelly, a student asked if it would be against the Code to bring cigarettes to school even if you are 18 years of age and legally in possession of the product. Mr. Mahoney noted that yes this action would be considered an infraction of the Code of Conduct.

In response to Ms. Kelly, it was noted that students do have an obligation to report inappropriate behavior and to discourage the behavior. Mrs. Kelly stated that she believed that expectation is
unrealistic for students. She stated it is not the responsibility of a student to tell on other students.

Kelly Donovan agreed that it is hard to speak up when you are a student.

Mr. Rudy suggested that the item K. be bolder/bigger and indented in some way.

A motion was made by Mr. Lindsay, seconded by Mr. Bondus, to move item I.4. off of the consent agenda.

Kelly Donovan asked a question regarding the Soccer moving to Fall 2004. Mr. Mahoney noted that Section IX and MAHAL has notified us that Districts will be subject to lawsuits if Girls Soccer is held at any time other than the Fall because if it was held at another time the girls would not be able to participate in the State Championships. Pending the results of a judge issued stay, we will, within a week or so, make a determination on the Soccer placement.

Mrs. Kelly asked questions regarding the District Steering Committee that used to be in place. She stated it would be helpful to the Building Leadership Teams. Mr. Mahoney noted that the two “steering” committees are for different reasons and the committee that she is proposing, would not be a board committee. We just happened to use the same language when we created the District Steering Committee but it was for facilities, not for the building level teams.

Mr. Rudy asked what was the Board’s responsibility when it came to BLT’s. Mr. Mahoney noted that the Board had the responsibility of following the regulation as it was created by the State Education Department. The Board was to democratize the process by having these committees rather than have top down implementation of programs.

If necessary, the Board Policy will be reviewed and updated.
Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Lindsay, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board accepts the minutes for the meetings of July 6, 12 and 19, 2004.

The Board made the following appointments:

- DCSBA Executive Committee Member – Alan Binder
- PTO Liaison – Dawn Blackburn
- Board Facilities Committee Members – Joe Forte, Judith Bondus, Dawn Blackburn
- Board Communication Committee Members – Judith Bondus, John Rudy, Alan Binder
- NYSSBA Legislative Liaison – John Rudy
- NYSSBA Annual Meeting Voting Delegate – John Rudy
- NYSSBA Annual Meeting Voting Delegate Alternate – Alan Binder
- DCBOCES Liaison – Edward Lindsay
- MCSD Educational Foundation Members – Thomas Hurley and Ted Lindsay

Mrs. Blackburn asked that the Communication Committee look into getting the school events more positive publicity.

The Board discussed the Board of Education Survey Results. The following comments were made:

- Mrs. Bondus was disappointed with the number of people participating. The reviews seemed favorable for the teachers and staff.
- Mrs. Blackburn agreed with Mrs. Bondus and noted that the timing was a factor in the participation. She suggested that the survey should be promoted and offered in November.
- Mr. Rudy noted that he felt the survey should be given later in the year.
- Mrs. Bondus stated it might be difficult to complete if you are switching schools i.e. going from Elm to Alden, but otherwise, the parents should be familiar with the school.
- It was noted that the questions were appropriate.
- Mr. Lindsay noted that he never expected more than a 10 percent response and will not expect more in the future.

It was determined that it is a worthwhile thing to pursue.
The timing needs to be worked on. Mr. Mahoney stated that he feels January may be a good time to offer the survey.

Items to be considered:
- Timing
- Appropriateness and number of questions
- What will constitute a concern in the answer
- The scale needs to be reviewed
- How to best include the community

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Lindsay, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board approves the Committee on Special Education (CSE) and Committee on Pre-School Special Education (CPSE) recommendations for the meetings of July 21, 2004 as presented and

BE IT FURTHER RESOLVED that the Board authorizes the funds to implement the special education programs and services consistent with said recommendations.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Lindsay, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board hereby approves the contract between the District and PAS Auto School, as presented, for the 2004-2005 Driver Education Program and authorizes the Superintendent of Schools to sign the same.

BE IT RESOLVED that the Board hereby approves the contract between the District and DC BOCES for transportation services during the Summer of 2004 at a cost of $2,195.90, as presented, and authorizes the board President and Superintendent of Schools to sign the same.

Mrs. Bondus was excused from the meeting at 9:30 p.m.
Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Lindsay, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board hereby declares that the attached list of computers and computer related items that are not in working order and are awaiting disposal be declared surplus and of no use to the District.

It was noted that the computers are the old EduQuest models that do not run well and/or do not support the current software. The EduQuest is essentially the first computer that was introduced into the school district. They are going to be delivered to BOCES where they will be disposed of properly.

The Board conducted a First Reading of the District Code of Conduct

A motion was made by Mrs. Blackburn, seconded by Mr. Lindsay, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board hereby authorizes the Board President (or the Board Vice-President’s in the Board President’s absence) to execute up to and including a $2,000,000.00 Tax Anticipation Note, and effect the borrowing of said sum in anticipation of taxes to be received from the taxpayers of the District during the current fiscal year of said School District, commencing July 1, 2004, and renewals thereof, if necessary. Such borrowing is to be effected on or about August 3, 2004, for a period of approximately one hundred twenty (120) days, to mature on or about November 30, 2004. Said note shall be sold privately to The Bank of Millbrook, at the interest rate of 1.00% per annum, where it shall be redeemed upon maturity, which date shall not exceed beyond the close of the application period provided in the Local Finance Law for the maturity of such notes.

All other matters, except as provided herein, related to such note, shall be determined by the Board President, or the Board Vice-President in the President’s absence, including the power to designate such note as a “qualified tax exempt obligation” pursuant to the provisions of Section 265 (b) (3) of the Internal Revenue Code of 1986.
A motion was made by Mrs. Blackburn, seconded by Mr. Rudy, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board hereby adopts the plan of the district to correct building non-conformances for fire safety.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Rudy, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board hereby appoints a maximum of three members to the District Facilities Construction Team and that John Rudy be one of the members. The other members appointed are Joseph Forte and Dawn Blackburn. Mr. Hurley will act as the ex officio member and only attend if one of the three members is not able to attend.

Mrs. Blackburn asked what the purpose for the Board presence is. Mr. Hurley noted that the purpose was to engage our professionals, keep abreast of the proposals and oversee the process.

Mr. Lindsay noted that he sees a few risks:
If the meetings are extended due to Board presence at the meetings will these be billable hours?
Any suggestions made by a Board member at the meeting may not be the prerogative of the Board as it was not voted on by a quorum of the Board.

Mr. Hurley noted that the meetings should not be lengthened due to Board presence and that personal issues can not be addressed as Board issues in that forum.

A motion was made by Mrs. Blackburn, seconded by Mr. Lindsay, and carried unanimously to adopt the following resolution:
BE IT RESOLVED, that the Board hereby determines to extend the employment of W. Michael Mahoney as Superintendent of Schools for a one-year period and authorizes the Board President to execute an agreement with Mr. Mahoney which sets forth the terms and conditions of his employment as the Superintendent of Schools for the period of time commencing August 17, 2004 and terminating August 16, 2005, with an annual compensation of $125,141 through August 16, 2005. There was one member of the community in the audience for the Regular Meeting of the Board.

Board President, Thomas Hurley called the Regular Meeting of the Board of Education to order at 7:34 p.m. Mr. Hurley then led the Pledge of Allegiance.

W. Michael Mahoney was appointed District Clerk Pro Tem.

A motion was made by Mr. Lindsay, seconded by Mr. Binder, and carried unanimously to convene in Executive Session to discuss negotiations under the Taylor Law and to consider a grievance at 7:38 p.m..

A motion was made by Mr. Lindsay, seconded by Mrs. Bondus and carried unanimously to return to Regular Session at 8:36 p.m.

Luis Rodriguez of The Palombo Group presented the Monthly Facilities Status Report to the Board and community member present.

Noted items:
  ▪ Boring finished, report has been received.
  ▪ Shale, graphite, loam, bank-run all found.
  ▪ Not much bedrock found.
  ▪ We are looking into what items of the sub surface can be used.
They are now looking into what type of building will be the best design, foundation wise, i.e., steel versus bearing block design.

In response to Mr. Hurley it was noted that the borings were done throughout the footprint of the building, in the roadways and in the existing parking lot. Mr. Rodriguez also noted that the type of construction would be planned dependent on whether we intend to use retaining walls (bearing block design) or push the subsurface back (steel). The final decision will be based on cost effectiveness and quality. At this time, they are taking the report and picking it apart to find the best suitable building for the district.

It was noted that that if there were a lot of bedrock, some of it would have to be removed to make the floors flat.

Mr. Rodriguez noted that the market is currently working in our favor. Prices have reached a plateau and are coming down. The bidders are getting much more competitive.

The districts that are building, and may compete with us for bidding, are Middletown with an expansion renovation, Fallsburgh later in the year, and Rhinebeck which may be on a similar timeframe, but we hope to get out prior to them.

The fact that we haven’t found a lot of bedrock is a positive because we will not have to spend a lot of money on the site itself rather than the building. Blasting and hauling the bedrock out are a costly venture.

Groundwater was not present in any of the borings according to the report. Drainage should not be a problem.

We will most likely still need to haul in fill for the road.

Material will be reclaimed on site and stock piled for later use. This is cheaper than importing.

The trees will be ground because the trees are not mature enough to be logged.
In the next month the selection of materials for the building will be made i.e., steel versus bearing block, veneer vs. block, digital versus analog systems, roofline access, room development including cafeteria, auditorium, classrooms…

Wired versus wireless technology will be basically the decision of the Director of Technology. It is what works best for the district. It is more efficient to build the wires into the walls during building rather than later. We could hard wire to a hub in each room and have the computers in the classes working on a wireless system.

A motion was made by Mr. Lindsay, seconded by Mr. Rudy and carried unanimously to move the first section of item K-1 off of consent.

There were a few members of the community in the audience for the Regular Meeting of the Board.

Thomas M. Hurley, Board President, called the meeting to order at 7:37 p.m. Mr. Hurley then led the Pledge of Allegiance.

The new staff for the 2004-2005 school year were introduced and welcomed to the district. Rebecc Whalen, new reporter for Millbrook Roundtable was recognized as well.
W. Michael Mahoney distributed, to the Board, a Design Development Manual, prepared by Clark Patterson Associates. He noted that the manual contains an overview of most design/development work that preceded our initial, preliminary submission to SED. It contains site plans, schedules, cost estimates and building schematics. In order to move into the Construction Document phase of this project, Mr. Mahoney asked that each Board member review the Manual and provide any comments to him by September 27, 2004.

Mr. Mahoney also noted that State Education Department has posted on its website that the turn around time for approvals has been estimated to be one week.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mrs. Blackburn seconded by Mr. Binder and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board hereby approves the minutes as presented for the meeting of August 30 and September 7th 2004.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mrs. Blackburn seconded by Mr. Binder and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board hereby approves the monthly warrants as presented.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Binder, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:

BE IT RESOLVED, that the Board hereby approves the following financial reports as presented:

1. General Fund Expenditures
2. Budget Transfers
3. Revenue Report
4. Treasurer’s Reports
Mr. Binder noted that he spoke to Senator Saland about the Wicks Law. It was noted that it would be brought up again next session, but that he wasn’t very hopeful.

Pride of Millbrook – Principals’ and Directors’ Reports
Mrs. Dewey, Director of Pupil Personnel Services noted the following: we now have a K-2 self contained special education classroom with a teacher aide, we have a new inclusion program running at Alden, collaborative classrooms in the high school are also new, Accelerated Reader is being introduced once again, Norton Gilligham (a reading program) trained teachers are at all of our schools.

Mrs. Fitzgerald noted a very successful opening day, many compliments on tiling and blacktop, puppet show, coffee with Principal on Thursday, and two field trips.
The Board reviewed the Facilities Report for August as presented.

Mr. Libka noted that the year also started smooth at Alden, a large number of students trying beginner band, Open House on Wednesday, September 22, 2004.

Mr. Matteson noted that the students really appreciated the work done, i.e. tiling in hall and cafeteria, but are still wanting more! He also noted that the Broad Band in Distance Learning is working well, we are offering two Advanced Placement courses over Distance Learning, and Spirit Week is coming up mid October- it is going to include baseball and field hockey night games under the lights as a prelude to Homecoming. A discussion ensued noting that the new Distance Learning program is working very well.

Mr. Fried noted that the additional employees are fabulous and only contribute to the great staff that we already have.

At 8:10 p.m., the Board conducted a public hearing on the temporary cellular tower at the bus garage/maintenance building. As a background, Mr. Hurley noted that the one-year lease agreement for the portable cell tower is about up and the Board has determined that, given the building project, it will be best to keep...
the portable until the new facility is established. Mr. Mahoney added that there is no requirement for a public hearing, but we wanted to make sure the public had a chance to speak out about the cellular tower. He noted that he has not had a single complaint since the last public hearing with regard to the cellular tower. No public comments were noted.

Mrs. Bondus requested that we have another public hearing with regard to the cellular tower. She noted that we did not give enough notice for the public hearing. Mrs. Blackburn noted that we certainly should have a public hearing prior to the permanent structure, but did not necessarily see the need for one now. Mr. Hurley noted that this is just a lease extension, not a permanent situation. Mr. Rudy agreed that it is ideal to inform all community members, but with the fact that this is temporary it may not be necessary, but for the permanent tower, it must be a public hearing that is well advertised. Mr. Binder offered a compromise, let’s see what the public says and does after this coverage in the newspapers. Mrs. Bondus agreed. Unfortunately, due to contractual dates, that idea does not work. Mr. Lindsay asked why we should have to bend over backwards to educate the community on this subject? He noted that the public is not here to object, so we should go on with the plan.

In an unofficial polling of the Board it was noted that the Board was willing to renew the contract.

After discussion, it was agreed that the Board would hold an information session to allow people to voice their opinions on the continuation of the temporary cellular tower on October 4, 2004.

The public hearing was closed at 8:47 p.m.

The Board reviewed the Facilities Report as presented for August, 2004. It was noted that the schools, buildings and ground look great. In response to a question by Mrs. Blackburn, it was noted that the Booster pumps have not been hooked up as of yet. Mr. Lindsay noted the great things that have been done over the year.
Mr. Rudy noted that congratulations are due to Mr. Mahoney and Mr. Robb, as well as the staff, for seeing these projects through.

A motion was made by Mrs. Bondus, seconded by Mr. Lindsay, and carried unanimously to accept the Enrollment report for the first day of school, September 8, 2005 as presented.

Communication Committee – It was noted that Judy, John and Alan were going to fine tune the survey and present it to the Board again. Mr. Mahoney also noted that Catherine Parsons and Diane Morey are creating bar graphs to put on our website to share with the public.

DC BOCES Liaison – Mr. Binder asked about any questions for Mr. Philips. It was noted that individual questions can be emailed to Alan. In addition, Mr. Binder reminded the Board about the State Legislative Network bus for Boards.

Legislative Liaison – Mr. Rudy informed the Board of rebuttals coming out and asked that the resolution booklets be returned next meeting. The State Legislative Network (SLN) is a New Yorks State School Boards Association (NYSSBA) organization that meets for a couple of days in March. They talk about past issues and how legislature has gone as well as current issues that they suggest members take. At this meeting the Legislative Liaison meets with the politicians to discuss our issues and lobby for the districts. A cost is associated with sending Boards to the SLN.

PTO Liaison – Mrs. Blackburn noted that the PTO had its first meeting last week. The proposed budget is included in the current packet. The first fund raiser has been kicked off and a walk-a-thon is planned. Minutes for the meetings will be provided.
Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Lindsay seconded by Mrs. Blackburn and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board hereby acknowledges that AP Environmental has nine students currently enrolled;

BE IT FURTHER RESOLVED that the Board hereby approves the continuation of this course for the 2004-2005 school year.

Upon the recommendation of the Superintendent of Schools, a motion was made, with gratitude, by Mr. Lindsay, seconded by Mrs. Bondus, and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board hereby accepts the donation from Eric and Chris Meyer of Meyer Contracting in the amount of $5,000.00 to help send students and coaches to a leadership academy;

BE IT FURTHER RESOLVED that the Business Administrator is hereby directed to increase the Budget by said amount.

Mr. Devincenzi gave the Board an overview of the Leadership Academy. He noted that it is training for our students by professional athletes. These athletes train the students in group work, public speaking, developing motivational messages and problem solving methodology. In addition, the coaches will become certified in sports parenting. This way we will be able to help and promote this with the community at large. The goals are to promote civility, character education, a healthy lifestyle and good sportsmanship. The students that are trained will then go into the classroom and teach their peers what they have learned.

Mr. Matteson gave kudos to Mr. Devincenzi for all of the effort he put into getting the donation and for the lighting for spirit week.

Mr. Hurley asked that Mr. Devincenzi provide feedback to the Board on the Leadership program prior to the creation of next years budget.
Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Lindsay, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Millbrook Central School District hereby approves the Norrie Point overnight class trip as planned by Mr. Yager. The trip is tentatively planned for October 6 through October 7, 2004.

Mrs. Blackburn noted that she went on this trip last year and believes it is one of the best things she has ever seen happen to a group of children.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mrs. Blackburn, seconded by Mr. Rudy, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board hereby approves the Varsity Softball trip to Walt Disney’s Wide World of Sports Complex in Florida. This trip is scheduled to depart in the morning of March 28th and will return in the afternoon/evening on April 1, 2005. The cost for the trip is $700.00 per student. The Superintendent added that no student should be excluded due to lack of funds.

There were three members of the community and a reporter in the audience for the Regular Meeting of the Board.

Thomas Hurley, Board President, called the meeting to order at 7:36 p.m. Mr. Hurley then led the Pledge of Allegiance.

Luis Rodriguez of the Palombo Group informed the Board on the progress of the new high school project. He noted the following:
  • Design development drawings have been delivered from Clark Patterson Associates. We plan to submit these documents to the State Education Department on November 30, 2004. At the same time, The Palumbo Group is creating the Design Development estimate. They plan on having this completed within two weeks.
  • Consultants, i.e. food service and sound, have been brought on board.
  • Programming requests have been brought up and are under consideration.
  • As far as the schedule, we are planning on having the drawings submitted to the State Education Department by the end of November. We then plan on having SED approval by, approximately, January 15, 2004. Bids will then be awarded in the middle to end of March 2005.
• Website links are anticipated during the bidding phase. They will then continue throughout the building phase.
• In December, the Administration and Faculty will be updated on the progress of the building.

In response to a question, it was noted that all consultants would be given a budget to work with for the full scope of work. The consultant designs to the budgeted amount as well as suits the needs of the district. Equipment will be specified by the consultant.

It was noted that the food service consultants are looking at the high school and how they will work with all of the kitchens.

In response to Mr. Rudy, it was noted that hard budget numbers would be coming in within the next one to two months. Numbers are trickling in for specific programs; they hope to have a good number in four weeks. At that time they will sit down and discuss the over or under amount, prior to submission to the State Education Department.

The Construction Documents are the next forms to be approved by the Board. They represent 90% of the project. After they are submitted the Palombo Group examines the documents to make sure everything fits, i.e. timeframes, specs, price, etc.. In addition, all contracts are finalized prior to the bid, which is during the eight weeks between SED submission and SED approval.

The specific selections of cabinets, lockers, etc., will happen during the bid writing. It was noted that specific manufacturers can not be noted, only general specifications. These selections will happen after the bid depending on what was bid on by each contractor.

It was noted that all specifications will be written by Clark Patterson Associates based upon our available funds and school needs. The standard will be used when in the bidding process, unless we specify otherwise.

It was noted that some staff members may be invited to review the specs, depending on the wishes of the Board and Administration prior to SED approval, which is in the next two months.
Mrs. Blackburn noted that the focus groups have already had their say in the building and have been addressed.

Mr. Mahoney noted that when specific design questions arise, faculty will be brought in.

Mrs. Bondus noted that some focus groups are still concerned about the plan. For instance, the Library focus group is not happy with the plan. Mr. Mahoney stated that the group is, for the most part, satisfied with the plan.

Mrs. Bondus noted that there are other issues that need resolution, i.e., distance from parking lot to the gym and the positions of the auditorium and the music rooms. What data do we have to show that it is too expensive to change?

Mr. Hurley noted that he, for one, has not heard any opposition to the gym/parking lot issue. He added that it is pretty much the same distance that we have now. As for the Library, he noted he also has not heard any opposition.

In response to Mrs. Bondus, Mr. Hurley noted that other Board members have not spoken out in favor of making the changes that she proposed. If the Board is to change the plans, the Board must consider them issues. In the end, the Board must reach a decision to move on, whether or not all members agree.

Mr. Lindsay clarified that Mrs. Bondus is suggesting moving the gym closer to the parking lot. Mrs. Blackburn noted that this has previously been discussed in July. How long should we discuss this item, while we were never given a dollar amount, we were told that it would be a significant amount. We have to give up something to move the gym when people have not come to us to complain about the position in the first place.

Mr. Lindsay noted that the site is accommodating the building, i.e., slopes. It was noted that it is cost prohibitive to change the building.
It was noted by Mr. Mahoney and Mr. Hurley that this layout is the one that was approved by the public and Board previously. It was also noted that the Board has previously been provided a Gantt chart indicating timeframes for the submission dates.

Mr. Rodriguez noted that he feels this is a good design and if it were not, the Board would be hearing it at all meetings—by the majority of the public not just a few people.

“Board of Education Review and Approval at 50%” is the step we are at now. It is about major programming issues, not brick color, tile types, etc. Mr. Rodriguez noted that if we were to move the gym, the job would not be bid out until June or July.

Mr. Rodriguez noted that the library issue is a simple issue of use of partitions. If it turns out to be a problem a partition can be added or removed as needed.

In response to the position of the auditorium and music room, it was noted that a height difference in floors would not allow the use of the music room as a backup and/or main entrance to the auditorium for the performers. Mr. Rodriguez again noted that they were working around the site and could not alter the plans without significant increased costs. Even an outside walkway would be costly. It would cost approximately $30,000 to $40,000 just for an outdoor ramp. Mr. Hurley also noted that Board has not discussed the feasibility of an outdoor ramp. Mr. Rodriguez also stated that SED may then turn around and require a covered walkway, adding additional costs.

In response to Mr. Lindsay, Mr. Rodriguez noted that the preliminary site work is hoped to begin, with the breaking of ground, in March 2005. Site work is planned on lasting for four to five weeks.

It was noted that Mr. Rodriguez would be at the November 15, 2004 meeting of the Board.
At 8:55 the Board conducted a public comment information session on the continuation of the temporary cellular tower. It was noted that due to the building project, the District is considering keeping the temporary tower rather than placing a long term tower on the site at this time. It was noted that no members of the public opted to speak.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Rudy, seconded by Mr. Lindsay, and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board accepts the minutes for the meeting of September 20, 2004.

The Board discussed the Board Goals for the 2004-2005 school year. After the discussion, a motion was made by Mr. Binder, seconded by Mrs. Bondus, and carried unanimously to adopt the following Board Goals:

- Provide support for the district in the development of a sound Middle Level educational initiative.

- Continue to improve the maintenance and condition of the existing district facilities, including the development of short and long term action plans.

It was noted that the board would re-visit the Board goals at the second meetings in December, March and June.

The student will be in tents, supplied by the campers, in groups of four to five. Each tent will have an adult chaperone. The goal is community building.

Mrs. Schaeffer also asked questions about our hiring a registered dietician. Mr. Hurley noted that we have to realize that the selections that students make is a reflection of the homes that they come from.

There were a few members of the community, students and one reporter in the audience for the Regular Meeting of the Board.

Thomas M. Hurley, Board President, called the meeting to order at 7:40 p.m. Mr. Hurley then led the Pledge of Allegiance.

Luis Rodriguez and Brian Plant were in attendance and provided the Board and members of the community with an update on the status of the facility project.

Brian Plant of Clark Patterson noted that all drawings and documents have been delivered to the State Education Department for review. The next step will be a face-to-face meeting with an SED representative and then final approvals. Once all approvals are received Clark Patterson will be working with the Palumbo Group to move forward.

Lou Rodriguez noted that the project is on schedule as of today. The Palombo Group is now re-estimating the project with the information that they now have. He noted that he assumes that SED will approve the project by the end of January. He is creating a milestone schedule with that approval in mind. The Phasing Logistics Plan will be created next. This will look at all surrounding areas, as well as traffic, to establish the best flow of construction for the District/community.
Separation of prime and alternate contracts has been discussed and will continue to be discussed in the next two team meetings. He also noted that they have met with the High School staff and have given them an overview of the teaching areas and traffic areas. That process included blown up schematics of each of the teaching and traffic areas being presented to the teachers for review and discussion.

It was noted that the bidders will be aware of the logistics of the building project, as this may affect the bids.

In response to a question regarding inspection milestones it was noted that the State issues the permits, not the Town or Village. Therefore, we will be responsible for the hiring of an independent testing agency to complete the required testing. That process starts right from the soil tests and ends with the finished building. At the very end of the process a BOCES representative completes an inspection and signs off on the CEO if all is in order.

In response to Mr. Rudy, it was noted that a new schedule has been created and will be shared with the team once plans are finalized. In addition, a milestone schedule for the project will be created and shared with the team. It was also noted that we are about four to six week ahead of schedule. The final cost estimate should be received during the last week of January.

On January 18 we will have another facilities update.

Kurt Robb presented information with regard to the Budget process to the Board. His presentation fully explained how a budget is created and how budget codes are used by the administrators.

With regard to budgeting and coding, Mr. Rudy asked when the new school would be broken out from the high school. Mr. Robb noted it will be in the next budget year.

Mrs. Bondus left the meeting at 9:00 p.m. Due to consent items, she is noted to have made motions in later parts of the minutes.

After a brief discussion, it was noted that Dawn Blackburn would be the Board member on this Task Force. She will share information with the Board and represent the Board. There were quite a few members of the community, numerous students  
and one member of the press in the audience for this regular meeting of  
the Board of Education.

The Regular Meeting of the Board of Education was called to order at  
7:37 p.m. by Board President Thomas Hurley.

Mr. Hurley led the Pledge of Allegiance.

Dan Pieter, Brian Plant, Patrick Flint and Luis Rodriguez presented the  
Board with the facilities status report. The following items were noted:

- Submission of final drawings to SED were submitted to SED and  
  approval on architectural, structural and civil has been received.
- A permit to go to bid should be received in two weeks or so.  
  They are not ready to go to bid at this time.
- The bid is expected to be prepared the first week in March.
- New elevations have been prepared and will be furnished to the  
  district in a jpeg file.
- Brick, concrete block, pre-cast and split-face concrete block have  
  been illustrated. The scale is broken down by creating shadow  
  lines by stepping the brick out and inch from the concrete block.  
  The ground base is designed to be out a half of an inch from the  
  brick.
The roof is a combination of metal roof and 30 year asphalt. The bid will show a 40 year asphalt option as well.

There are four roof hatches on the auditorium roof that allow for smoke removal in the event of a fire. They are designed to automatically open if the fire alarm is activated. They will reset themselves once the alarm is deactivated. CPA will look into getting these made in a black finish.

Down spouts are a copper color that matches gutter, roof cupola and some metal roofing.

There will be adequate drainage and a fire roadway around the building.

The gutters will have to be maintained to remove leaves and particles. Heat trays are going to be installed in these gutters, but they can not clear the leaves.

A good portion of the material on-site will be used on-site to fill.

Lou noted that he has been working on constructability of the project and making sure that it remains on or under budget.

The building is larger than the original proposal and it is still under budget at this stage. They will provide bid alternates in the event that the building comes in significantly under budget. Bid alternates include the 40 year asphalt. Bid alternates also give the District flexibility with regard to bid acceptance.

The first week of March is the goal to begin the bid process. We expect to accept bid the last week of March and hope to have a recommendation for April 4th. If the contractors need additional time, they may ask that we extend the bid for a week. Groundbreaking would then commence in the third week of April.

If needed, space may be available for cutting in the gymnasium and auditorium, but new drawings and SED approval would be required in most instances.

All alternates must be accepted at the time of bid acceptance/approval.

The next meeting will be February 23, 2005 at 8:00 am.

Andy Ciferri asked what materials were going to be used on the building and the heights of back stage doors.

Under Correspondence it was noted that the Fact Sheet has been distributed as well as the True Property Tax Report. Millbrook has the
54th lowest, out of 57 districts, True Tax Rate in the surrounding six counties.

Andy Ciferri informed the Board that he has heard rumors about the Village Board being anti-school. In response, he stated, “if it does get said, please know that he personally will not tolerate an anti-school attitude. We are not going to stand in the way of the building or the road.”

Andy Cifferi raised a question about the water for the new high school. He inquired as to whether the response to the Village water proposal was from the Board of Education or from Mr. Mahoney. Mr. Mahoney responded that he and the Board had discussed the proposal and that the response was prepared by the school attorney.

Mr. Mahoney inquired of Mr. Cifferi as to how many other entities who had tapped into the Village Water system had been asked to defend and indemnify the Village for repairs that the Village might make to any portion of the existing water mains or system when they “tapped into” the system. Mr. Cifferi responded that none had been asked to make these “guarantees”. Mr. Mahoney suggested that Mr. Cifferi and the Village Board move with due diligence to approve an agreement that benefits both the Village Water System and the School District without clauses that would be impossible for reasonable people to interpret. There were quite a few members of the community, staff and one member of the press in the audience for this regular meeting of the Board of Education.

The Regular Meeting of the Board of Education was called to order at 7:00 p.m. by Board President Thomas Hurley.

Mr. Hurley led the Pledge of Allegiance.

A motion was made by , seconded by , and carried unanimously to convene in executive session to discuss the employment of a particular person at p.m.

A motion was made by , seconded by, and carried unanimously to reconvene in regular session at 7:47 p.m..

John Pennoyer and Edward McCormick of Dutchess County BOCES addressed the Board. Mr. McCormick noted that the BOCES budget would be available on Wednesday. Dr. Pennoyer noted that 25 Millbrook students are currently attending BOCES, 240 professional development programs are available for Millbrook staff and the Rhinebeck Performing Arts Program is up and running.
Mr. Mahoney noted that in tough budget years, the BOCES programs are very cost effective for the district.

It was also noted that safety and risk personnel are in discussion with our staff regarding cameras for the current and new high school.

Dr. Pennoyer noted that he would suggest the expansion of distance learning for a district our size in a difficult budget year. Mr. McCormick noted that BOCES also wants to help teachers in the classroom, in terms of student and teacher needs.

After questions from Mr. Hurley, Dr. Pennoyer noted that Millbrook CSD participates in many consortium programs such as DEHIC, Cooperative Recruitment, Cooperative Bids, and a statewide investment pool.

Mr. Lindsay stated that he was very pleased with BOCES participation in CTI. Dr. Pennoyer noted that 60% of BOCES CTI students go on to attend a two or four year college. Mr. Lindsay reiterated that he is impressed with the safety net that BOCES creates for our students.

Mr. Binder noted that we as a district would like to have a television production studio capability through BOCES. Mr. McCormick stated that that was a great suggestion and it would be looked into further.

Mr. Rudy asked if BOCES has made any “painful” cuts and if any of those would effect Millbrook CSD. Dr. Pennoyer noted that adult education has been cut in half over the past 3 years.

Mr. Hurley thanked Dr. Pennoyer and Mr. McCormick for the visit and thanked them for the advancement that BOCES has brought our students. Dr. Pennoyer noted that BOCES provides many beginning skills for students that are taught pre-college rather than post.
Mr. Hurley shared a letter received via certified mail from the Village of Millbrook Mayor, Donald Briggs, regarding the roadways for the new high school. In this correspondence Mr. Briggs noted that the Village would like to meet regarding making Alden Place a dead end road. Mr. Hurley noted that this was not a timely response as we plan on breaking ground in less than a month. Mr. Mahoney noted that the district has planned to have multiple opportunities for egress and access rather than a dead end for Alden. Mr. Mahoney also noted that we address counsel with regard to this. Mr. Lindsay noted and asked for clarification regarding the Department of Transportations' recommendations. Mr. Mahoney noted that lighting and things of that nature would be decided at a later date. Mr. Binder noted that we need that road to be in use for all emergencies and to relieve traffic on the new road. He noted that he would not be in favor of designating Alden Place as a dead end. Mr. Hurley stated that this is a new concept for the Board of Education; all drawings and renderings have designated two roads, Alden and Church, leaving and accessing the schools.

Mr. Boissey asked if the school board ever discussed building a new road with the Village. Mr. Hurley stated that yes; prior administration did ask the school board to assist in the development the Church Street entrance. Mr. Boissey also asked if the Village Board could unilaterally close Alden Place. Mr. Mahoney noted that according to our counsel the Village could not unilaterally close Alden Place.

Mrs. Ronis addressed the Board with regard to the 2005-2006 Budget. She noted that as a staff member and community member she is concerned that budget cuts will harm the students on the edge. Mr. Hurley noted that those concerns are also shared among the Board, but they have to get a budget passed or even more students will be affected. He noted that half of this budget encompasses new debt service to fund the new high school and half is money needed for normal yearly increases. In response to suggested cuts, it was noted that after reviewing the budget, there is not enough possible cuts to even maintain a quarter of a percent of the budget.

Mr. Hurley reviewed the Budget process with the public.
Mrs. Kelly asked what the budget increase would be without the 10 positions being cut. Mr. Hurley noted that it was approximately 14% budget to budget and they are at 10.69% budget to budget increase with the cuts.

Lisa Wilson asked to have the clarification that debt service is included in a contingency budget. Mr. Hurley agreed. She added that given the 5% of debt service taken out, the district budget is only a 5% increase while neighboring districts are increasing by much more. Mr. Hurley noted that Mr. Mahoney, Mr. Robb and Mrs. Simons have reviewed this budget and are realist in thinking that it can maintain the district.

Mr. Binder asked if the Board would be able to put a separate proposition to restore positions that were cut in the basic budget. He asked what would be the result if such a Propositions B passed and Proposition A did not. Mr. Mahoney noted that he would not suggest doing such a thing without the advice of council.

Mr. Seanz noted that losing the ten positions doesn’t make sense in the long term with wanting to increase the staff when the new school is built. Mr. Hurley noted that the student to teacher ratios would not change in normal subject areas only special education. He noted that the administration believes that these positions can be reduced without compromising programs.

Mr. Rudy stated that the district has to be sensitive to the tax payers at this time. The vote was close and we have to be sensitive to that. Not everyone was in favor of the new school and we have to rein in other spending to make it easier for the public to accept.

Mrs. Bondus and Mr. Hurley both noted that each time a cut is made it takes time to build back up. It was noted that the difference is a deliberate cut versus a forced cut with a contingency budget.

Mr. Baker asked if the contingency budget would have mandates that the district cut certain items. Mr. Robb noted that administrative and equipment cuts come first, then charging for building use and then program cuts to get to the number that is acceptable by SED guidelines.
Mrs. Kelly asked the Board to remember that the Budget last year passed very easily. Mr. Hurley agreed, but noted that it could not be assumed that the public would agree to pass a budget of any number.

Ms. Findeis noted that she appreciates the difficulties that are being faced, but she suggests that the Board let the taxpayers have a chance to voice their opinion.

Mrs. Gagnon noted that she appreciates the support here.

Mr. Como stated that he feels that anything over the 10+ percentage would be detrimental to the budget. He added that he believes that the loss of positions is the result of poor labor negotiations; reality says attempt to pass this and hope we can get it through.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Rudy, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board accepts the minutes for the meeting of March 23, 2005.

A motion was made by Mr. Binder, seconded by Mrs. Bondus, to suspend the decision on the Budget and Property Tax Report Card by one week in order to consult with legal counsel regarding a proposition for the reinstatement of positions. In discussion, it was noted that the Board wants to support option 1 as the main budget with proposition 2 restoring the ten cut positions. 5 – 2, carried, with Mr. Lindsay and Mr. Hurley voting nay.

Mr. Mahoney provided the Board with a Draft District Calendar for 2005-2006. Mr. Mahoney added that he would like to put this on the agenda for April 26, 2005 for adoption.

In an unrelated item, Mr. Mahoney noted that District has extended the bid opening to April 14th, 2005. Therefore, he asked the Board agree to meet on April 18, 2005 to accept the bids.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Rudy, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board approved the Health Services Contract for the 2004-2005 school year between the Somers Central School District and the Millbrook Central School District as presented;

IT IS FURTHER RESOLVED that the Board authorizes the board President and District Clerk to sign the same.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Rudy, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution: 
BE IT RESOLVED that the Board approved the Health Services Contract for the 2004-2005 school year between the Hyde Park Central School District and the Millbrook Central School District as presented;

IT IS FURTHER RESOLVED that the Board authorizes the board President and District Clerk to sign the same.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Rudy, seconded by Mrs. Blackburn, and carried unanimously to adopt the following resolution:

BE IT FURTHER RESOLVED that the Board authorizes the funds to implement the special education programs and services consistent with said recommendations.

Mr. Baker asked if all meetings were open to the public. It was noted that all meetings are open to the public including budget adoption on
the 11th, bid approvals on the 18th, and a Regular meeting on Tuesday the 26th.

Ms. Goerlich thanked the Board for postponing the budget approval because it is people not positions to her and her fellow teachers.

A motion was made by Mr. Binder, seconded by Mrs. Blackburn and carried unanimously to adjourn the regular meeting of the Board at 9:32 p.m..
