Facilities Project Overview

Mr. Burns provided the Board with a project overview noting the following:

- Site work is going well although additional blasting was required. Phase one and two is on schedule. The parking lots are going well. Within a week or so major changes will be visible. Sediment basins are being created. Electrical trenches and communication lines up Church Street are coming along and are being installed now.
- The General Contractor is installing footings and getting ready to form the foundation wall later this week and will be poured within the week. Structural steel will arrive the first week in August and steel construct will begin by mid August.
- The electrical contractor is getting ready to start the underslab utilities. The roofing contractor is in the submittal stages and should be roofing in December.
- Food service is also in the submittal stage. HVAC and Plumbing are also in the submittal phase, but are ramping up for the underslab rough-ins that will be taking place later this week and early next week.

Mr. Burns provided the Board with a written Summary Report.

Potential Change Orders-

Item 1- $218,000 and 2- $182,000 (Fire Suppression Water Supply Tank Installation) Both of these estimates include the tanks and installation. 001 is on the East Side of the road, 002 is on the West. Both sites would require tree removal and blasting. They will need the Board decide on this issue. The Board agreed to support item 2 pending actual costs.

Item 11 $26,200 – Water Line Relocation (relocating the water line to Alden Place and branching off to the old HS and a new line and two hydrants to the
new HS). This water line was found in the sediment basin. It was thought to be in the street, but wasn’t.

It was noted that a flat file room would be beneficial for the district. This room would serve to house all building plans for the district owned or leased buildings.

Item 12- $7,800 (Water Line cost over Allowance) is the remainder of the estimate to install the new water line at the top of the hill to the new high school.

A motion was made by Mr. Lindsay, seconded by Mr. Rudy, and carried unanimously to authorize Change Orders 11 and 12 in the amounts of $26,200 and $7,800 respectively.

Item 3 is a credit for the rerouting of primary electric and telephone/fiber lines from Church Street. The electrical and communication lines will be moved into the trench that the footings were installed in.

Item 4 is a credit for the rerouting of telephone and fiber lines at the parking lot as associated with the site work contractor which eliminates 100 feet of trenching

Item 5 is a credit for the rerouting of the telephone and fiber lines at the parking lot associated with the Electrician for labor and supplies for the material for the 100 foot trench.

Item 6 is a credit for the water meter. The village is supplying the meter to the district at a cost of approximately $1966.00.

Item 7 is the credit for overhead coiling doors. This estimate is based on perceived value to come out of the Ferrari and Sons contract. This item was noted in both Ferrari and Sons contract and the Kitchens Supply contract.

Item 8 is a siding credit from WB Roofing. Again this item was due to redundancy in the contracts with regard to the gable ends on the building.

Item 9 is a change order for stone removal (blasting). This is the bulk stone removal from Sun Up.
Item 10 is a change order for stone removal (blasting). This is to Ferrari and Sons and is for the installation of the fuel oil and gas tanks on the front side of the school.

Both items 9 and 10 are not finalized. They will be removed by the gym.

Mr. Rudy asked if the water retention pond was going to cause stagnant water. In response it was noted that the retention ponds will generally be mowed grass and only contain water after rains. After a rain the pond will filter and release the water, not hold it indefinitely. Maintenance for the retention pond includes mowing and cleaning the drains. The district will be provided with the maintenance requirements for the entire project.

Mr. Rodriguez noted that the project updates will be provided monthly. Once the building gets going, he state that there will be less required change orders.

The parking lot and new bus loop will be functional in September 2005 for the opening of school.

Brian Plant of Clark Patterson addressed the Board regarding the dormers and building aesthetics. The dormers in questions are the additional four dormers on the gymnasium area. They are purely for aesthetics. The cost is $8,200 per dormer. The east elevation will not be visible unless you are on the athletic fields. The west elevation will be visible to all from the front. Eight dormers were removed from the original drawings and the board is considering adding dormers. If dormers are added on the main building costs will be greater as the steel is already manufactured for that area.

In discussion, Mrs. Blackburn noted that the four dormers should be put back into the gym area. Mr. Hurley noted two were required on at least the West Elevation. Mr. Rudy suggested that they add all four dormers. Mr. Lindsay also wanted the four dormers installed in the gym area. This will re-revisited on July 18, 2005.

Mr. Plant also brought some samples of building materials for the Board to review. The base is a chiseled face block in dark gray and there will be three courses of these. A utility brick in almond will sit on top of the chisel face. The vertical elements are alternating in smooth ground face tan and red utility bricks. The pre-cast for the sill and header is a off white. The clear windows are what were bid out. An add-on would be required for a blue tint glass for
the windows and doors. The canopy roof is in a copper color. The fascia will be a dark bronze. The roofing will be 40-year black shingles. The retaining wall color is anticipated to be a grey mason block. A vapor barrier will be installed behind all facial façade. The Board agrees with the color scheme as described and viewed tonight.

Decisions on the windows, dormers, flooring and water tank will be made on July 18, 2005.

It was noted that the Board would visit the site on Monday prior to the meeting.

There was one member of the community in the audience for this regular meeting of the Board of Education.

The Regular Meeting of the Board of Education was called to order at 7:37 p.m. by Board President Thomas Hurley. It was noted that prior to the meeting the board and a few community members toured the new facility site.

Mr. Hurley led the Pledge of Allegiance.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mrs. Blackburn seconded by Mr. Forte, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board hereby accepts the minutes of the meetings of July 11, 2005 as presented.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mrs. Blackburn seconded by Mr. Forte, and carried unanimously to adopt the following resolution:
BE IT RESOLVED that the Board hereby approves the monthly warrants as presented.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mrs. Blackburn, seconded by Mr. Rudy, and carried unanimously to adopt the following resolution: BE IT RESOLVED, that the Board hereby approves the following financial reports as presented:

1) General Fund Expenditures  
2) Budget Transfers  
3) Revenue Report  
4) Treasurer’s Reports

Pride of Millbrook – the Principal’s and Directors informed the Board of notable items.

Mr. Rudy asked about Medicaid reimbursements. Mr. Dewey noted that we already contract with DC BOCES and they maximize our Medicaid reimbursements.

The Board reviewed the facilities report as presented.

A motion was made by Mrs. Blackburn, seconded by Mr. Rudy, and carried unanimously to accept the Enrollment Report for June 2005 as presented.

A motion was made by Mrs. Blackburn, seconded by Mr. Forte, and carried unanimously to accept the Suspension Report for June 2005 as presented.

Legislative Liaison – Mr. Rudy noted that he attended the “HELP ARLINGTON LOWER TAXES” Meeting. He noted that the Midstate School Finance Consortium was well intended, but would not be a wonderful thing for Millbrook in particular, seeing as we are already a save harmless district. It was noted that the Midstate group is a small lobbying group.
Mr. Hurley noted that the Foundation is pursuing the hiring of an accountant/bookkeeper. Mr. Mahoney noted that they are tying up loose ends from the July 11, 2005 event and they believe that they raised $20,000 and spent $10,000, so they will have a $10,000 profit on that event.

Brian Plant of Clark Patterson Associates and Rich Burns of Palumbo Group provided the Board with a Facility Project Review in hopes of coming to an agreement on some change orders.

Dormers – Mr. Burns noted that he needed to know what we were going to pursue aesthetically with the dormers, i.e. 8, 4, or 0 added. It was noted that the number for additions have fluctuated and that Palumbo needs to narrow that down. If we decide on a number of dormers wanted, we can better get a concrete number for construction. It was noted that the Board decided that what happens on the front must be also on the back. Dawn noted she thought they were needed on the gym area, but that she could see valid points for adding or not adding on the main area. Mr. Rudy noted he preferred the original design of adding all dormers. Mr. Forte noted he preferred adding at the four dormers on the gym. Mr. Hurley stated that the original rendering is a nice look, but with a cost, so he is inclined to hold back on all dormers. Mr. Binder noted the he would like to add four, but would not support 8. He added that if it meant loosing the floor, he would bypass all dormers. Mr. Ross noted that he preferred dormers over B as well. It was the consensus of the Board to add four dormers. It was noted that Mr. Rudy still wanted to hear the costs of adding the dormers on B as well.

Mr. Plant noted that further add-ins may be additional wardrobe closets in the classrooms and things left out of the original documents. The additional add-ins should be few and far between. Mr. Hurley noted that landscaping and lighting could be improved, if needed, with this money. Mr. Burns noted that if that is to be done (lighting changes) it needs to be done now because those trenches are being closed. In the next owners meeting a schedule of decision dates will be discussed.
In a sidebar, it was noted that the school did not have an “entry” yet. Mr. Burns noted that this would affect curbing and lighting requirements.

Windows and Door Glazing – Mr. Plant provided a sample of the blue glazing. It was noted that the tint would vary from manufacturer to manufacturer. It was also noted it was only a tint and would not improve the window in any way. The cost for the alternate tinting was $11,120.00. In response to questions Brian and Rich noted they would check on replacement protocols for the glazed glass.

The bronze sash was already purchased in the base contract.

Mr. Binder noted he was opposed to glazed glass and thinks we should stick with basic glass, either framing works. Mr. Rudy shared Mr. Binders’ concerns about the glass and preferred the clear anodized frame. Mr. Hurley preferred the glazing and the bronze frame. Mr. Plant noted the grey and bronze tint were very popular. Mrs. Blackburn noted that she swayed to the blue if we were guaranteed that we could get replacements easily and in a consistent color.

Flooring- Mr. Plant provided the Board with samples of the flooring purchased (VCT) and other options such as stonetex tile, sheet vinyl ($27-$30 cost for materials), and porcelain tile ($8-$12 cost for material only) sealing the gout and the labor involved is where the cost arises.

At 10:00 p.m. the administrators were excused.

A motion was made by Mrs. Blackburn, seconded by Mr. Forte and unanimously carried to approve the use of ebony mesa block for the retaining walls required for the new high school.

A motion was made by Mrs. Blackburn, seconded by Mr. Binder and unanimously carried to approve four dormers on Section C (the gymnasium) at the original deduct amount of $32,450.00.
As far as the exterior goes, the board asked that Mr. Plant investigate a gray water table rather than the tan one.

A motion was made by Mr. Binder, seconded by Mr. Ross, and carried unanimously, to approve the use of the following exterior materials:
- GlenGary Utility Block

There were a few members of the community in the audience for the Regular Meeting of the Board.

Thomas Hurley, Board President, called the meeting to order at 7:39 p.m. Mr. Hurley then led the Pledge of Allegiance.

A motion was made by Mrs. Blackburn, seconded by Mr. Lindsay and carried unanimously to convene in executive session to discuss the employment of a particular person at 7:04 p.m.

A motion was made by Mr. Lindsay, seconded by Mrs. Blackburn and carried unanimously to reconvene in Regular Session at 8:14 p.m.

Jeff Rouse from Dutchess Boces presented the new school website to the Board and public. It was noted that the overall design came from Roxanne Johnson at the high school. It was also noted that our main focus now is for everything to be done in three or less steps. The information will now be more centralized in the update process. Teachers will be able to update individual pages as they are now. Each school as well as the District will have area specific calendars. It was noted that each school secretary and the District Clerk would be updating the District/School(s) Calendar, all other areas will be accessed only by the Technology Director and BOCES representatives. The new system is browser and OP independent. The site consists of six categories with dropdowns. The “search” feature will not work for approximately 1 – 2 weeks because it is a free service for school from Google and
they need to crawl the site prior to activation. Jeff noted that he was the district support from BOCES for this service.

Mr. Lindsay asked if districts in the County have made sections for alumni and district surveys. Mr. Rouse noted that districts have used their websites for both alumni pages as well as surveys. It was noted that all questions regarding the website should be addressed to Diane Morey.

Mr. Hurley noted that convention materials should have been mailed out and received.

Under the item of facilities project, Mr. Burns and Mr. Plant were present to discuss the project.

Mr. Plant showed the Board the window glazing samples. It was noted that the glazing would be in the second sheet of glass. The tint is only manufacturer specific. The specific glass can be installed by anyone, but must be purchased from one manufacturer. It was the consensus of the Board to go with the clear glass.

Mr. Plant showed the district both clear anodized clear window doors and a bronze window framing. The Board, after discussion reached a consensus on using the bronze window framing. It was noted that Mr. Rudy preferred the clear framing.

Mr. Plant presented a conceptual drawing of the flooring in the main areas (cafeteria and gymnasium) of the school. The tiles are 18x18 porcelain tiles because the smaller the grout lines the easier to clean. Discussion arose on why the school colors were not used. Brian noted that he felt the medium toned brown and green were more inviting than the school colors of blazer blue and grey. In answer to a question regarding maintenance, sound and cleanliness, Mr. Plant noted that it is low maintenance, the walls would need more sound protection because of the porcelain on floor and walls, and it can be mopped to be cleaned. The absence of school color was discussed in length. It was noted that school color would be used in other areas of the building. The Board reached consensus on the porcelain tile and the conceptual design as presented, absent the color, which will be determined in a few weeks. It was the opinion of Mr. Mahoney that the academic areas be a more earth tones and only have school colors in the gym area.

Mr. Mahoney informed the Board that the engineers have determined that two sub-surface drains in the courtyards of the current building would be beneficial. Because of re-grading for the new parking lot, the water would not escape naturally and would cause ponding in those areas. The Board approved the $4,197.50 change order to install these two drains.

A motion was made by Mr. Lindsay, seconded by Mrs. Blackburn to approve the change order to continue the paving area to include the addition of a top coat of blacktop on the loop area at the current high school at a cost of $11,200.00.
The Board conducted an initial discussion of the low enrollment courses for the 2005-2006 school year. French IV/V currently has an enrollment of six students. It was noted that the enrollment is unlikely to increase because of the pre-requisites required for the class. After discussion, the board agreed to approve the continuation of the class initially. This will be readdressed at the second meeting September for final approval.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mrs. Blackburn, seconded by Mr. Lindsay and carried unanimously to adopt the following resolution:

There were members of the community and staff in the audience for the
Regular Meeting of the Board.

Thomas Hurley, Board President, called the meeting to order at 7:38 p.m.
Mr. Hurley then led the Pledge of Allegiance.

Alec Pandaleon addressed the Board about the districts registered sex
offender policy. Mr. Rhine noted that we have a procedure in place and it
has been followed this year in all instances when we have been informed
of a sex offender moving into or lingering in the area.

John Rudy asked where the $40,200 dollars came out of the budget to
fund the modified sports program. In response it was noted that a
custodial worker was removed.

In response to Dot Schaeffer, Mr. Hurley noted that the Board is still taking
a risk with a 12.5% increase and felt it was a fair reduction for the school
and the community.

Stephanie Shoemaker addressed the Board regarding the elimination of
French. Mr. Hurley noted that we do not have the numbers to support the
program in this difficult time.
Susan Gagnon asked if the district could phase out the program rather than cut it completely.

Mr. Pandaleon questioned the Board regarding the State Aid and asked if we are double checking the State’s numbers when our State Aid is determined. Mr. Hurley noted that the District did in the past hire a person to look into our Aid and determine if we were missing out on anything. He added that we will continue to work to get the formula changed so we get our share.

Mr. Boissey added that the State Aid formula is a political formula. It is based on the redistribution of wealth. Because they perceive us as a wealthy community, we lose.

Mr. Baker noted that even if the State Aid doubled, the budget to budget increase would still be 12.5%.

Anne Marie Dignan asked if the French could be phased out and still offered to the people that are currently taking French. Mr. Rhine stated that if we can offer French without hiring additional staff we will do it.

Mr. Binder added that the district wants to have French offered as much as the parents and students. If we can do it without additional expense, we will.

Lisa Wilson noted that it was our schools and we have to support it. This Board meets monthly, where was the support and help in March, April and May when the Board was building the budget?

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Binder seconded by Mr. Lindsay, and carried unanimously to adopt the following resolution:

BE IT RESOLVED that the Board hereby accepts the minutes of the May 2, 16, and 24, 2006 Board of Education meetings, as presented.

  Tonya M. Pulver, District Clerk

Numerous members of the staff, student body and general public were present in the audience for the Special Meeting of the Board.

Thomas Hurley, Board President, called the meeting to order at 7:38 p.m. Mr. Hurley then led the Pledge of Allegiance.

The public hearing on the 2006-2007 budget was opened at 7:41. Mr. Robb presented the 2006-2007 budget as revised. He indicated what cuts were made from the initial budget that was presented to the community on May 16, 2006. He noted that a French Teacher, .3 FTE Music Teacher and an Elementary Teacher have been removed from the revised budget. He also noted that out of the $700,000 cut 54% was cut in Teaching, 9% in pupil services, 8% in Media Instruction, 10% in transportation, 10% in Benefits, 1% in Finance and Administration and a small percentage in Operations and Maintenance.

It was noted that the entire 2006-2007 Revised Budget is $20,732,929.

Mr. Hurley opened the floor to questions. Questions were raised as follows:
Elizabeth Banavalle asked what progress was made regarding State funding. Mr. Rhine noted that progress has not been made as of yet. The solution for Millbrook will not be a quick solution, it may take years. Mr. Hurley added that it was an effort that would require a broad effort from the community, not just the local governments. He noted that the Board has been pushing this movement forward for years, but nothing has changed as of yet.

It was noted that the best way to support this initiative is to flood the law makers with phone calls, letters, and face-to-face meetings. Mr. Rhine suggested that once this vote is over, we need a concerted effort that seeks a change the school funding.

Alec Pandeleon apologized to the parents and to the Board for doubting that the Board was doing their job. He added that after research he has realized that this district spends far less per student than the majority of districts and that needs to end.

Jim Page of the Town of Washington asked about the enrollment this year as compared to the enrollment next year. It was also noted that it is not a simple task to divide the students by teachers to find the per student/teacher ratio.

Mr. Lindsay noted that the new building was built because of actual growth at the times and the fact we were over crowded at the new facility. Mr. Rhine also noted that it is a space that will provide an adequate program for the students. These buildings are meant to serve students in the 60’s not 2000.

Mrs. Wilson noted that special education costs run about 10% of our entire budget. Mr. Rhine noted that the State and Federal government had promised to aid 8% of mandated programs, but rarely fund more than 4%. Mr. Hurley said we are proud to take care of these special needs children and should not see it as a burden because it is the right thing to do. What we need is for additional Federal funding for IDEA.

Jane DeBoise asked why we have to run four schools. Mr. Rhine noted we have too many students to house them in three buildings at this time. The schools are busting at the seems at this time….we have special education services being held in closets.

John Realle asked questions regarding the teacher changes, specifically the Library Clerk. Mr. Robb noted that the Clerk will be checking in and out
books and a District Library Media Specialist acts as a teacher and assists students and teachers with projects, orders books and oversees the Library services.

In response to Mr. Pandeleon it was noted that Dr. Jaeger has been working with the current administration already to make sure the ball is not dropped. Mr. Hurley also added that Lloyd is well connected in Albany and will definitely see this through.

Mr. Baker reminded the Board and the community that the budget would not change if the State Aid changed because we are just looking at expenditures at this time. Even with additional aid, we would still have a 12.5% increase.

Mr. Hurley, in response to Mr. Pandeleon, noted that $18,000 per student is a broad number we should strive for in the future according to area research.

Mr. Rhine noted that the District has had great results giving the limited funds. He added that was because of the dedication of the staff and administration. Mr. Rhine noted, given time, great leadership and funding, this district could be one of the best in the State.

In response to a question from the community, Mr. Robb noted that the retirement portion increases because of ten new positions (4 aides, nurse and 2 custodians and new library clerk and a typist monitor)

Caitlyn Digman and Jennifer brought a petition to the Board asking that French be reinstated. Mr. Matteson noted that French IV is guaranteed next year and the current French II will get limited service.

In response to Mr. Rudy it was noted that he did not think the District could not get to an austerity budget for two years in a row.

In response to Mr. Baker it was noted that back ten years ago sports, transportation and library books were not considered contingent expenses, so those items could be voted on separately.

Mr. Lindsay noted that he believes that we are a wealthy community and he fears that if the State Aid figures are looked at we will lose more. He added that he is baffled by the communities lack of support for the students, in essence our future. The community must know that we must pay for services
provided. He added that voting a budget down does not reduce the salaries of the administrators and the teachers, instead it reduces the programs and services provided to the students. He added that the Dutchess County schools are doing a great job and not getting community support.

Susan Temple addressed the Board regarding communication that gets generated regarding the positive things that are happening in the schools.

Mr. Binder noted that we need to get people out to vote and have to get the word out. Information from the Deli is not sufficient and not true. Our children deserve a quality education.

Mr. Binder added that we do not have an industry base to help pay the taxes; we chose to have beautiful landscapes (mostly with tax exemptions) instead. The people that are benefiting from the community need to be supporting the schools.

Kerry Weller stated that she was a senior when we went through the last austerity budget 20 years ago.

Barbara Rudy noted that a large group of people vote no because they just don’t understand. It may be too confrontational for them to attend a meeting, but perhaps a forum may be helpful. Mr. Hurley noted that the Budget committees may return and we will look into different ways to reach out locally.

Mr. Campbell commented that people may have voted no because they are not receiving a yearly raise and can’t justify school employees receiving raises yearly. He added that the IBM economy is on austerity and has been so people he works with can’t relate to people getting raises each year.

The public hearing was closed at 9:25 pm.

Upon the recommendation of the Superintendent of Schools, a motion was made by Mr. Binder, seconded by Mrs. Blackburn and carried unanimously to table the discussion regarding the replacement of the High School Telephone System.

In response to Mr. Rudy, Mr. Rhine noted that he did not mean to suggest that the District would be dissolved if the budget was not approved by the voters.
He clarified that he did not think the district could get to austerity a second time and did not know what the district would do in that situation.

A motion was made by Mrs. Blackburn, seconded by Mr. Ross and carried unanimously to adjourn the meeting at 9:30 pm.
